

Person-Centred Community Rehabilitation

The Community Rehabilitation Programme at Beaumont House focuses on practical progress, wellbeing and participation in daily life. Each person is supported to build confidence, strengthen routines and take part in activities that matter to them.

Support is shaped around the person, not just the service. Staff work with each resident, and where appropriate with families, carers, referrers and care professionals, to create clear and respectful support plans.

Prime Dublin Location **Homely Environment**

Beaumont House offers a supportive and homely environment in a well-connected Dublin location. The house is suitable for people who need a calm residential setting, practical daily support and opportunities to build confidence through the Community Rehabilitation Programme.

Community living in a connected Dublin setting

Beaumont House provides a homely and structured setting where people can develop routines, independence and practical life skills. The home supports a balance of privacy, shared living and staff support.

About Attuned Healthcare

Attuned healthcare provides person-centred residential and community rehabilitation support for adults in Ireland. We focus on dignity, independence, daily living skills and community connection.

Our homes offer safe, welcoming environments where each person is supported according to their needs, choices and goals. Through personalised support plans, we help residents build confidence, take part in meaningful routines and enjoy a better quality of life.

Quality of life around Beaumont House

Beaumont is a mature and well-connected suburb of Dublin. Its location near Donnycarney, Santry and Artane gives residents access to a wide range of local amenities, community spaces, shops, services and transport links.

Being close to Beaumont Hospital is an important benefit for many residents, families, carers and referrers. It supports easier access to appointments, healthcare services and professional networks where required.

- * Residential Community
- * Hospital Proximity
